

I am writing today on behalf of K-LOVE regarding proposed expansion to Lower Power FM (LPFM) stations to take priority over current FM translator service.

K-LOVE is a vital part of the Chicago, IL area and suburbs. I have been listening to this station since moving into the area in 2001 and I have not identified another station that is so listener friendly (no obscene or inappropriate songs/talk shows), as this is a Christian Radio Station. I like the fact, I can listen to the radio with my kids in the car. If this new proposed expansion is passed, who knows what they may be exposed to.

In today's society and the State of the Nation today (at war), people are turning more and more to religious venues, such as, K-LOVE.

Please prayerfully consider this request to NOT expand the LPFM, so our K-LOVE station can continue to be broadcast throughout the Chicago area.
